## Pyrite Possession

Once my family and I went to Arizona. My grandpa Johnny took us to a Souvenir store. I was extremely excited to get a special Souvenir. I wanted to get a special object that I could cherish forever. Then I went to the valuable stone section. I discovered there was a sparkling rock. I gently selected the sparkling stone and showed it to my grandpa. My grandpa looked very amazed and he said, "well the store was selling rocks. So Storm have you decided what you wanted as a special Souvenir?" Then I answered, "I want this rock called iron Pyrite this a treasure that I will always cherish forever." Then my family and I went home. I put the Pyrite in a safe place. I couldn't stop glancing at my newest rock. I was extremely happy to have my special stone. That's how I received this very special object.
